EXPERIENCE

LIBERTY MUTUAL INSURANCE *Software Engineer Intern*

Seattle, WA

May 2017 - August 2018

- Implemented and deployed a full-stack web application
- Developed a web application to reduce excessive workspace set-up time for new hires; earning First Place and People's Choice Award in an annual intern hackathon
- Took initiative and established a leadership role as the main communicator between the product owner, the designer, and the entire team throughout a three month long project

FREELANCE WEBDESIGN *Web Developer*

January 2014 - Present

- Designed and developed a variety of websites in categories such as non-profit/real estate/law
- Provided consultative services for a variety of consumers to deliver personalized and creative products that would be best suited to meet the consumer's individual needs and goals

PROJECTS

SURE HOPE FOUNDATION *Website*

January 2014 - Present

Previously designed, and now currently managing a non-profit organization's website, which has assisted in raising \$10k towards a school in Uganda that aims to provide equal educational opportunity for children

SHINY KEY REALTY *Website/Web Application*

January 2018

- Created a web application to streamline their process of collecting customer information during house showings and to allow the owners to easily retrieve this data in the future.
- Designed/developed their website to attract a new customer base and remain competitive with other real estate companies
